1972 saw the birth of the rock 'n' roll messiah Ziggy Stardust, whose provocative flirtation with sexual identity and gender roles laid the cornerstone for **David Bowie's rise to "the most influential pop musician of all time"** (New Musical Express).

Reinhard Kleist skillfully interweaves the genesis of this over-the-top alter ego with David Bowie's luckless endeavors in the **pre-Stardust London music scene** and his struggles with his own creation at the height of fame. Ever more rapidly, Bowie transforms himself into the egocentric rock star whose wildly extravagant lifestyle threatens to destroy him.

Her delicate, comic-style illustrations compose bluntly honest pictures; **the factual background encourages readers not only to think, but also to change their way of thinking.**

Forest Without Trees concerns itself with the distinguishing characteristics of European forests, and what needs to be done to protect this eco-system that's so important for us all.

Wacky story about the phenomenon of fan culture

What goes on in the heads of fans? Fans generate piles of content on social media and often contribute greatly to the success of their stars. Nevertheless, they are ridiculed and, to some extent, underestimated. **Olivia Vieweg researched the phenomenon of fan culture and made a story out of it.**

The actor Allan is stuck in a crisis: He wants to shed his image as a rom-com star and finally tackle some serious character roles. Alas, it's **Allan the rom-com star** that his fans love! **When three fangirls kidnap him, chaos ensues.** They force Allan to act out scenes from his films – according to their rules. Quickly realizing he can't escape from them, he starts to sabotage his kidnapers' plans. But there's something he didn't think of: **Worse than being adored by his fans is being despised by them...**

Olivia Vieweg completed her university degree with the graphic novel *The Last Days of the World* (published by Carlsen), which has been adopted into a film years later. MAREN AMINI

is an internationally known illustrator, comics artist and cartoonist (e.g. for the Washington Post) and received an important prize for *Ahmadjan* even before its publication.

Your work, which won a prize even before publication, describes the life of your father. He told you about his experiences and in addition to his story, your graphic novel incorporates elements from an 800-year-old Persian fairy tale. Can you give us the basic idea of such a *mélange*?

This 800-year-old epic is still highly contemporary. It tells of the search for freedom and a higher purpose, of difficult obstacles and inner transformation. Like the 1,000 birds of *The Conference of the Birds*, Ahmadjan sets off, led by the hoopoe, on a journey into the unknown, because the world has spun out of control. He's full of hope and determination to reach his goal, Simorgh, the bird master. Because Simorgh is the one who will usher in order, safety, and peace at last.

What was the final factor in deciding to make *Ahmadjan and the Hoopoe*?

I'd always wanted to craft a book about my father's life, because I knew, of course, that he'd experienced many dramatic and exciting times. In August of 2021, when the Taliban seized power, the ground beneath our feet was pulled out from under us. Papa was heartsick and distraught, and he wanted desperately to act, to do something that would make him feel less helpless. He wanted to catalogue all the cruelties he was seeing on his phone and show them to the whole world, and I just wanted him to stop watching these videos. And I knew that the time for our book had come.

Life and good stories are ... epiphanies, detours? But certainly more than that, aren't they? Good stories are like treasures. Ahmadjan has grown up with the story of *The Conference of the Birds*. His grandfather told him the story many times when he was a child. Many people in Afghanistan can't read or write, but this Persian verse is like an internal treasure trove. It's enormously enriching for people to carry this trove within them. It provides stability, especially in turbulent times.

Good stories are like treasures

AHMADJAN AND THE HOOPOE

200 pages, 17.3 x 24.5 cm

ISBN 978-3-551-79971-5

- A prize-winning work even before its publication
- Gripping, touching, humorous biography
- Afghanistan's politics from a personal aspect

In 1972, young Ahmadjan Amini travels from Afghanistan to Germany. He wants to be an artist, and almost ten years later he becomes the father of the author.

What follows is **a colorful zig-zag path, a profoundly moving life between art and war**, homeland and new beginnings, flight from strife and responsibility for family members left behind in Afghanistan. Through it all, he never stops searching for happiness.

Based on the 800-year-old Persian saga *The Conference of the Birds* by Farid ud-Din Attar, the author also portrays the confrontation with one's own identity.

Jeder fossile Knochen gehörte irgendwann mal zu einem Lebewesen. Das gilt auch für Schädel früher Menschen. Doch wie sahen sie aus? Um mehr darüber zu erfahren, stellen Profis aus den Knochen Gesichter wieder her. Das geht etwa so:

Der Schädel ist meist nicht vollständig, oft auch verformt.

Am Computer bilden die Fachleute den Schädel nach und bauen fehlende Knochteile ein.

Mit einem 3D-Drucker wird der Schädel hergestellt. An ihm modellieren sie mit Knete die Muskeln und Fettpolster und setzen Glas- augen und Zähne ein.

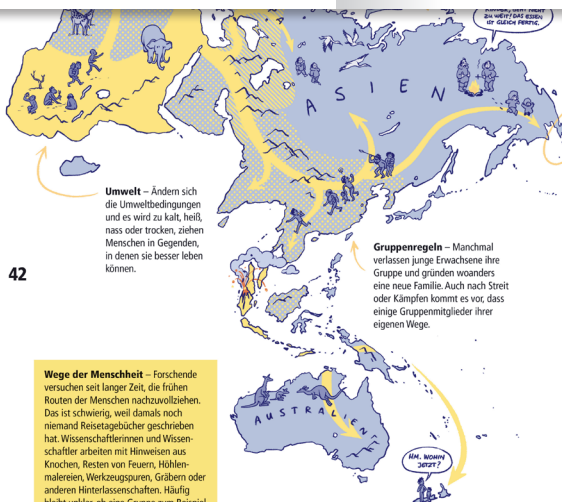

Dann pinseln sie eine gummiartige Masse auf und formen daraus die Haut.

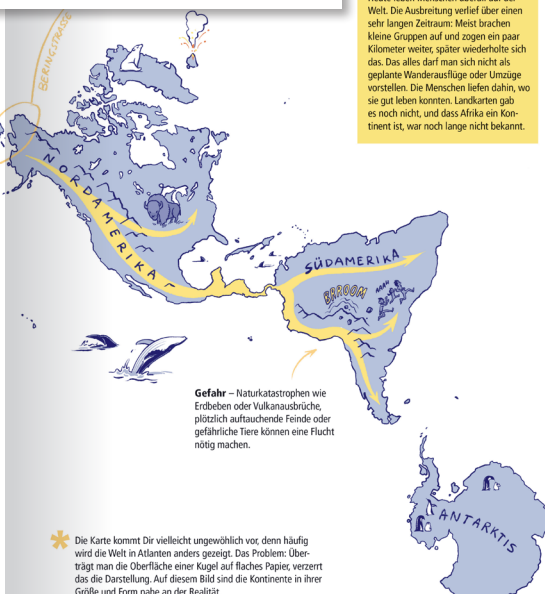

Schließlich bekommt der Glatzkopf noch Farbe und Haare – fertig!

Woher, wohin? Die ersten Menschen haben sich in Afrika entwickelt. Von dort aus zogen einige unserer Vorfahren nach Europa und Asien. Später schafften es manche nach Nordamerika, anschließend auch nach Südamerika und Australien. Heute leben Menschen überall auf der Welt. Die Ausbreitung verlief über einen sehr langen Zeitraum. Meist brachen kleine Gruppen auf und zogen ein paar Kilometer weiter, später wiederholte sich das. Das alles darf man sich nicht als geplante Wanderausflüge oder Umzüge vorstellen. Die Menschen liefen dahin, wo sie gut leben konnten. Landkarten gab es noch nicht, und dass Afrika ein Kontinent ist, war noch lange nicht bekannt.

After his father's death, **Tobi Dahmen discovered a collection of old family letters**. With the help of this lens on history, **he reconstructed a chronicle of Germany before and during the war as reflected in his own family's story**. Columbus Street stands for more than just one family who lived on this street in Düsseldorf and their experiences during the years 1935-45. This narrative (over 500 pages) is more like a sensitive confrontation with the politics of the years 1935-45 in national socialist Germany.

Tobi Dahmen (born 1971) studied Visual Communications in Düsseldorf. He now lives in Utrecht, and works as a comic artist and illustrator for magazines, marketing campaigns and web campaigns. He was awarded with the *ICOM Award* for the best shortcomic in 2007, and with the *Reddot Award* for a corporate design in 2011. His graphic novel *Getting Grand. Memories of a Smalltown Mod* was published in 2015, and stirred a lot of interest.
