# The Cloud Class

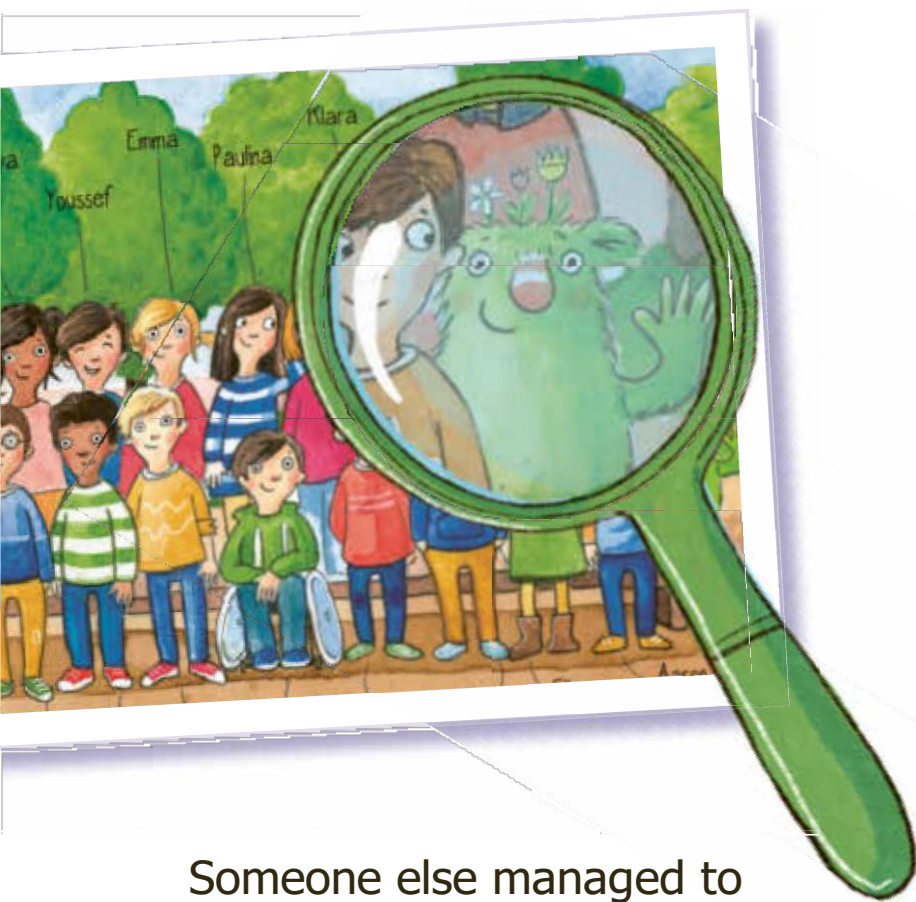

This is the cloud class. The cloud class is colourful.

Mrs Wasily is the class teacher.

Someone else managed to  
sneak into the photo.  
It is the little WE.  
It waves happily into the camera.

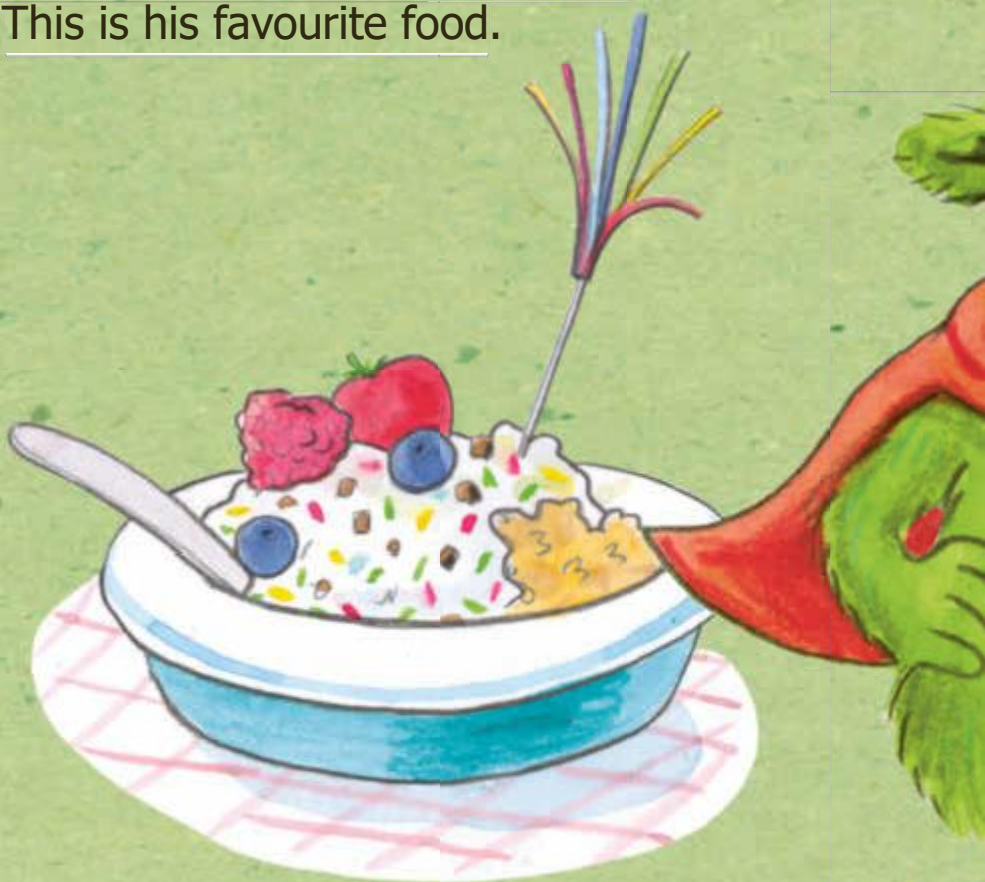

The little WE has made itself beautiful. It  
combed its green fur.  
It watered the three flowers on its  
head.

A WE emerges,  
when people like each other.  
It is where people are together. Also in  
a class.

The little WE likes the cloud class very  
much. It also likes nonsense with gravy.  
This is his favourite food.

The little WE lives in  
our hearts.  
It lives there very  
comfortably. It can become  
huge.  
Sometimes it is also very small.

Maya, Ella, Lars and Erik  
drive to school.  
They like to ride in a group.  
They feel safe that way.  
They also like to talk. At one  
point the road goes uphill.

Then the little WE blows. The children always have enough momentum for the mountain. The little WE makes the way to school easier.
